BALL TRANSFER UNITS & CARGO HANDLING EQUIPMENT

www.btbearing.com

HEAVY DUTY MULTI-DRAIN CARGO BALL TRANSFER UNIT

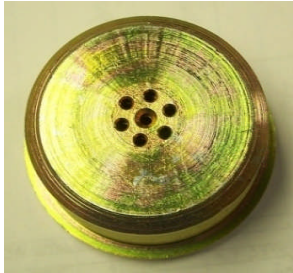

Features:

- Omni-directional
- Heavy duty one piece housing
- Durable 400 Series Stainless Steel 1-3/16" Main ball
- Tough 400 Series Stainless Steel 1/8" Support balls
- Heat Treated fully machined steel housing
- Highly improved multi-hole drainage design
- Great value of price vs. performance
- Dimensionally compatible with competitors
- Heavy loads are moved with minimal effort
- Tested for superior performance
- Meets new military specifications for COTR approval
- Made in the USA

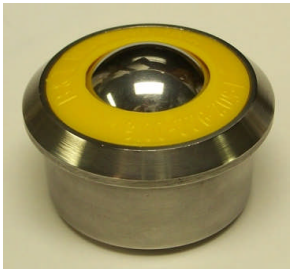

Part # BT/CS6030M & BT/SS6030M

BT/CS6030M

- Corrosion resistant
- Zinc Plated Carbon Steel Housing
- 500 lb load capacity
- Multi-Drain design allows better dirt & debris elimination
- Suitable for all indoor cargo handling applications
- Offers years of use under normal operating conditions
- Easy drop-in replacement design

BT/SS6030M

- Corrosion proof
- Stainless Steel Housing
- 500 lb capacity
- Multi-Drain design allows better dirt & debris elimination
- Suitable for outdoor, refrigerated, and wet conditions
- Offers years of use under normal operating conditions
- Easy drop-in replacement design
