CARGO CONTAINER POP-UP STOPS BT/PU2003

B&T Bearing manufactures Cargo Container Pop-Up stops to assist you with your freight forwarding and logistics needs. We have specifically engineered out Pop-Ups to help you stop and stabilize a container during loading and unloading. They are ideal for warehouses that use Ball Transfer Units and Ball Decks.

Our Cargo Stops are foot-activated, step-and-turn Pop-Up Stops carefully designed for hands-free easy operation. These Cargo Stops assist you with stabilizing heavy containers with ease.

Features:

- Hard Mounted Type
- Durable and robust solid carbon steel construction
- Easily mounted at specific zones
- Spring-loaded
- Foot-activated (hands-free device)

BT/PU2003
Made in the USA
