

# Compliance Features Overview + Audit Prep Checklist (Control Points Edition)

April 13-16, 2026

MODEXSHOW.COM

A **NEW PRODUCT LINE** WILL BE  
ANNOUNCED AT MODEX!

Booth B7524

## Identify Common Audit-risk Control Points

### Compliance Feature Overview (What to Spec For)

# A

- Safety engagement & guarding considerations (pinch points, access)
- Sanitation-ready component options (sealed choices, cleanability factors)
- Material selection guidance by environment (steel vs. poly)
- Duty cycle alignment (how frequency + load impacts risk)

Notes:

### Audit Pre Checklist (Quick Use)

# B

- List critical control points: stops, transfers, rollers, routing
- Note environment per zone: dry, damp, wash-down, chemical exposure
- Record spec rationale: material, sealing, maintenance interval
- Confirm documentation: SOP reference + inspection frequency
